

## WingShots

AERIAL PHOTOGRAPHY

### WHY AERIAL IMAGES...?

There is only so much a wide angle lense can capture from the ground; give the camera wings and you'll see that nothing showcases a property better than high resolution aerial photographs.

#### RESIDENTIAL & COMMERCIAL

Aerial images capture:

- full vista perspectives
- structure
- access routes
- landscaping and the surrounding environment
- nearby towns, landmarks and neighborhood
- Surrounding demographics & infrastructure reveal

The addition of premium aerial photographs to your promotional packs demonstrates to vendors that you take a professional, innovative and pro-active approach to the marketing of their property and also reinforces to buyers that your business is the only place they should be looking to make their next purchase.

### WHY WINGSHOTS...?

WingShots offers you a new & impressive marketing tool providing a unique selling point for your business in the competitive property sales environment.

Kyle Gardner brings 20 years experience in commercial aviation to WingShots. This combined with his expertise in photography
